Key Assortment Gaps Identified

1. Premium Whitening Systems Gap

No Up&Up Strips + Light Offering

2. Flavor Innovation Gap

No Mint or flavored whitening strips

3. Treatment Count Gap

No participation in 12–14 treatment count segments

4. Maintenance Whitening Gap

No direct size comparison to the category-leading whitening pen

5. Trade-Up Opportunity

Shoppers currently must purchase national brands in these segments

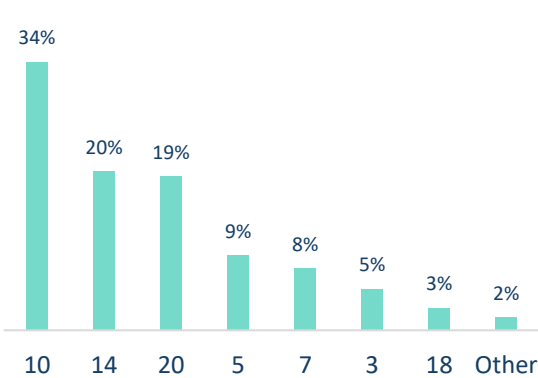

Whitening Sale Drivers

Treatment Length Research Shows 10ct is Most Common

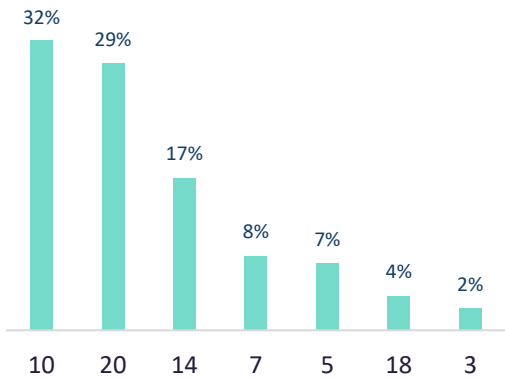

Recommendation: Offer 10ct as Base Assortment, Offer 3 or 5ct, and 20ct

10 Treatments is the most common Count Size purchased
10 or 20 Treatments is the most preferred (61%) size offering
95% of users use all the strips in the package
30 Minutes is the preferred wear time for strips

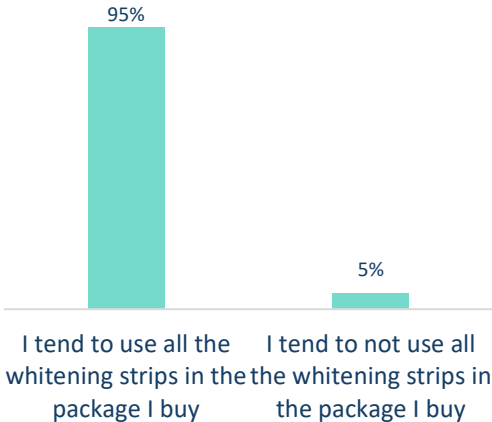

What package size (number of whitening strips) do you usually buy?

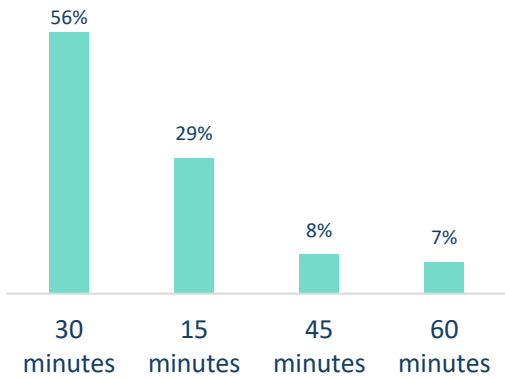

What would be your preferred number of whitening strips/pack size?

Which of the following statements describes you?

What is your preferred wear time for each treatment?

High Consumer Interest in Mint Flavored Whitening Strips

+1.3M Dollar Opportunity

84%

of shoppers who currently use whitening strips find flavored whitening strips appealing

"It would make them more fun and easy to use."

80%

of shoppers are interested in purchasing flavored whitening strips

"Most teeth whitening strips have a bad taste and flavored ones would make them more pleasant to use."

>50%

of consumers prefer mint flavoring

Shelf Strategy

Shelf Strategy- Grand Rapids, MI Location

Replace GuruNanda

1. GuruNanda undercuts Up & Up trade-down strategy in 7 treatment count segment
2. \$9.99 vs. Up & Up at \$12.59
3. Adjacent placement creates strong shelf blocking
4. Easy SKU-for-SKU replacement
5. Maintain mint demand with Up&Up Mint Strip

What would be your preferred number of whitening strips/pack size?

Which of the following statements describes you?

What is your preferred wear time for each treatment?

Crest spans 30-, 45-, and 60-minute treatment platforms rather than being exclusively a 30-minute brand

Description	Marketed Wear Time
Vivid White	30
Sensitive & Gentle	30
Noticeably White	30
Sensitive Bright	30

Description	Marketed Wear Time
Professional Results	45
Professional White	60
Ageless Whitening	60
1 Week Smile Transformation	60

Emphasize Quick 30-Minute Treatments on Pack

Future Innovation Pipeline

Crest Post-Ortho Whitening: Innovation Through Consumer Segmentation

What Crest is Doing

- Targets consumers immediately after braces or aligner treatment
- Creates a new whitening need-state beyond traditional stain removal.
- Leverages existing Whitestrips technology with orthodontic-specific positioning

Implications for Perrigo

- Opportunity to innovate around consumer occasions, not just formula upgrades
- Potential whitespace in targeted whitening solutions (Post-Ortho, Sensitive, Maintenance, **Coffee/Wine Users**)
- Demonstrates that category growth can be driven through segmentation and positioning.

New Opportunities: Retainer Cleaner

- Helps clean retainers, aligners, mouthguards, and dentures.
- Addresses growing consumer demand for dedicated appliance-care solutions.
- Provides an easy at-home cleaning routine that complements oral care regimens.
- Expands beyond whitening into the broader oral care and dental appliance maintenance category.
